

September 28 ~ 1st Grade

What a week for STEAM-infused learning!! We started the week off by finishing up a paper airplane challenge that we got started with on Friday. Then, we worked with Mrs. Knight to do some solar/sun prints.

Friday we said goodbye to one of our classmates, Aanya. She and her family have moved into a new house that is in the Springville attendance area. We are excited for her (new house, new school), but sad to see her leave. We wish her and her family well!

Do you know what day we have PE? Please ensure that your child wears or brings PE shoes to school on our PE days.

Conference Planning Sheet

Please take some time to read over the first grade goal list that came home Friday. Attached to this paper was a conference planning sheet. I am asking you to write 2 strengths you see in your child right now, and one goal that you want your child to work toward first this year. The goal list is for you to keep to refer to. Please return the completed planning sheet (2 Stars and 1 Wish) to school as soon as it is completed, or by October 10th at the latest. Thank you!

LOST!

Unfortunately, some kids in our class are starting to find personal items missing.

These items are going missing during class time. Although these things may not seem important to us, as adults, they are valuable to our children.

Until the time that these items are found, and to help minimize the chance that your child's items might go missing, I encourage you to talk to your child about keeping all personal items at home.

WE ARE LOOKING FOR: a fabric belt, a Minnie Mouse lip gloss, backpack clip, and a blue with red heart backpack clip

Hopefully the items will be found soon!

Box Tops

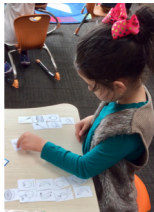

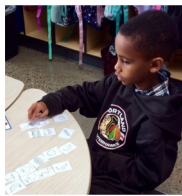

Our school is collecting Box Tops off of participating products. Box Tops are used to purchase items for Sato that are used by teachers, students, and SECO alike.

The Week in (some) Pictures

Sun science and art: viewing the position of the sun through solar glasses and talking about its movement across the sky and making sun prints with solar paper and found items

A concept sort (word sort) in action

We continued a paper airplane STEAM challenge that we started last Friday...making a paper airplane that can fly the farthest, using only paper, masking tape, and 4 paperclips

PLEASE NOTE:

We go to Library on Wednesday. If your child still has library books at home, please have them turn them in Monday or Tuesday.

Sato Running Club starts next week!
Tuesdays: students can come and run the track before school. Thursdays: students can run the track during lunch recess

Popcorn Friday will be next Friday, October 5th

Conferences: Oct. 24 & 25

Conference sign-ups will be done electronically, using the PTCFast.com-Conference Scheduler.

October 1st: families with multiple children attending Sato, please sign up for conference time slots with each of your children's teachers. There is no passing time built into the conference schedule, so to ensure that you get to each conference on time, please do not schedule conferences back to back.

October 3rd: conference sign ups are open to all families.

If you received a conference/interpreter letter from Mrs. Wesner, then your conference has been pre-scheduled, due to interpreter constraints, and you do not need to sign up for a conference time slot.

Conferences will be 20 minutes in length.

A planning sheet came home today to help you start thinking about what goal you feel is most important for your child to focus on first this year. Please fill out the planning sheet that was attached to the goal sheet and return it to school in your child's Homework Folder no later than Wednesday, October 10th.

Thank you!

**I'm looking forward to
seeing you
October 24th or 25th!**
